car

A vehicle with four wheels that carries a small group of people.

bus

A large road vehicle that carries many passengers.

bicycle

A vehicle with two wheels that a rider moves by pedalling.

motorcycle

A motor vehicle with two wheels that a rider sits on.

kick scooter

A small vehicle with a standing deck and handlebars, pushed along with one foot.

train

A rail vehicle, or connected rail vehicles, that carries people or goods along tracks.

metro train

A city train that often travels through underground tunnels.

taxi

A car with a driver that passengers pay to take them somewhere.

truck

A road vehicle used to carry goods.

van

A road vehicle with an enclosed space for goods or passengers.

tram

A passenger vehicle that runs on rails, often along city streets.

minibus

A passenger vehicle that is smaller than a full-sized bus.

school bus

A bus used to take children to and from school.

police car

A car used by police officers as they do their work.

ambulance

A vehicle equipped to help take ill or injured people for medical care.

fire engine

A vehicle that carries firefighters and firefighting equipment.

tractor

A strong vehicle used to pull farm equipment or loads.

pulled rickshaw

A small passenger cart pulled by a person on foot.

skateboard

A board with four small wheels that a rider stands on.

boat

A water vehicle used to carry people or things.

ship

A large water vehicle that carries people or goods.

ferry

A boat or ship that carries passengers, and sometimes vehicles, between stopping places.

speedboat

A motorboat designed to travel quickly on water.

yacht

A boat used for leisure, powered by sails or an engine.

jet ski

A small powered watercraft that a rider sits or stands on.

airplane

An aircraft with fixed wings that is moved through the air by an engine.

helicopter

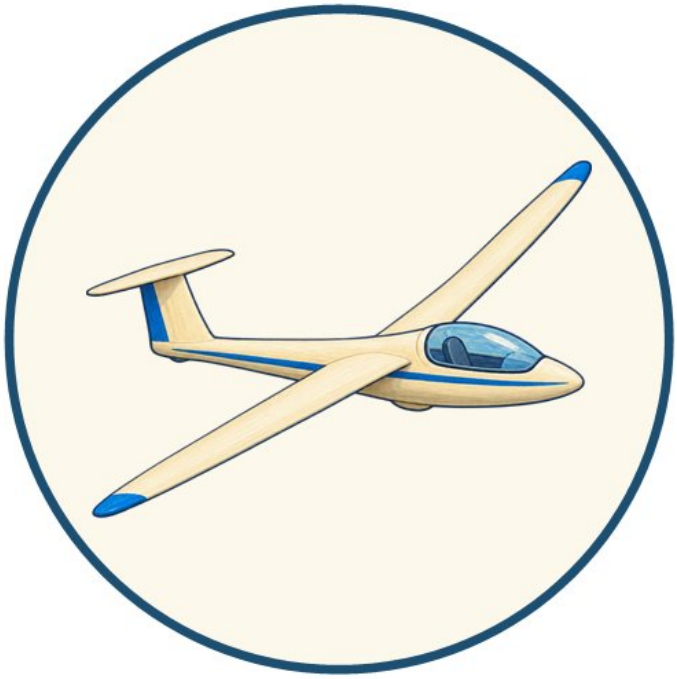

An aircraft lifted by turning rotor blades above its body.

hot air balloon

A large balloon lifted by warm air, with a basket underneath.

glider

An aircraft designed to glide through the air without engine power.

space shuttle

A reusable spacecraft whose winged orbiter returned to Earth and landed on a runway.

motor scooter

A motor vehicle with a seat and a platform for the rider's feet.

auto-rickshaw

A small motor vehicle with three wheels that can carry passengers.

cycle rickshaw

A passenger vehicle moved by a person pedalling.

coach

A large passenger vehicle often used for longer road journeys.

double-decker bus

A bus with passenger seats on two levels.

tow truck

A truck used to carry or pull a vehicle that needs help.

refuse truck

A truck that collects and carries rubbish.

concrete mixer truck

A truck with a turning drum that carries and mixes concrete.

tipper truck

A truck with a container that can lift to tip out a load.

rowboat

A small boat moved using oars.

sailboat

A boat that can use wind in its sails to move.

canoe

An open boat. This canoe is shown with a paddle that has one blade.

kayak

A narrow boat with a low seat. This kayak is shown with a paddle that has a blade at each end.

tugboat

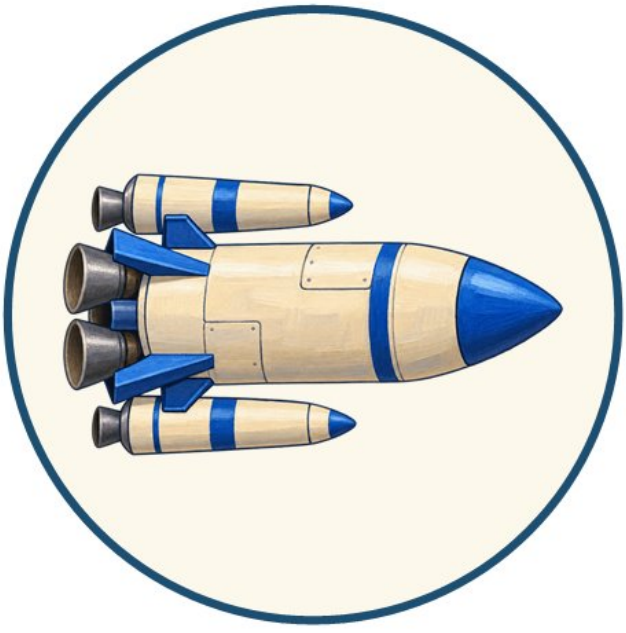

A strong boat that helps move other boats or ships.

cargo bicycle

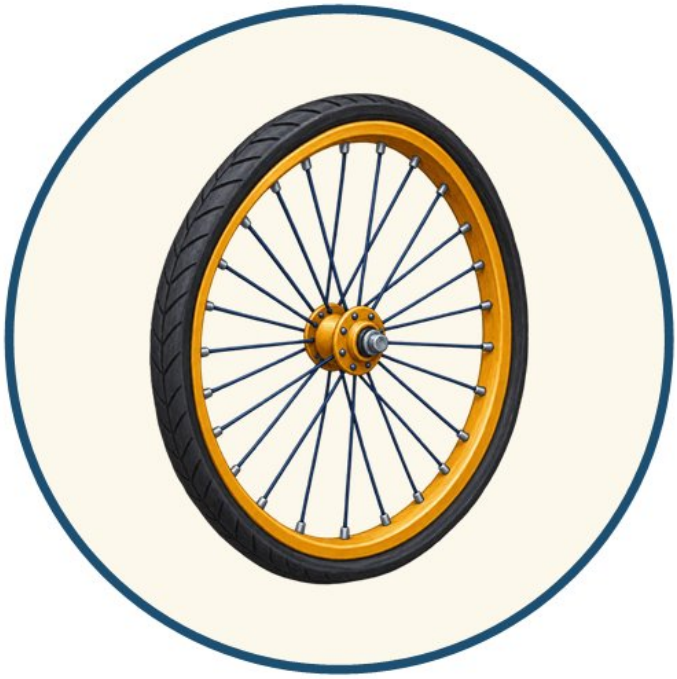

A bicycle built with space to carry a load.

rocket

A vehicle whose engines push it upwards and can carry things into space.

wheel

A round part that turns to help a vehicle move.

tyre

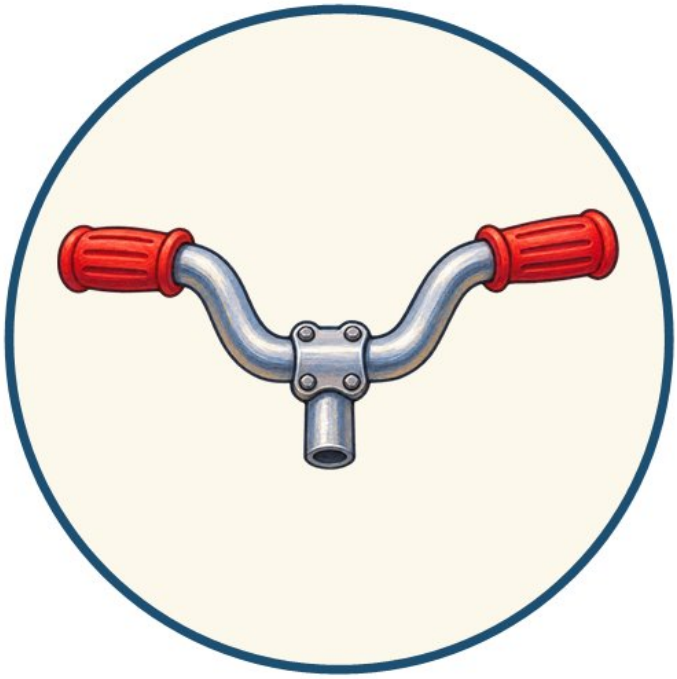

The outer covering around many vehicle wheels.

pedal

A part that you push with your foot to work a bicycle or another machine.

handlebars

The bars a rider holds to steer a bicycle or similar vehicle.

steering wheel

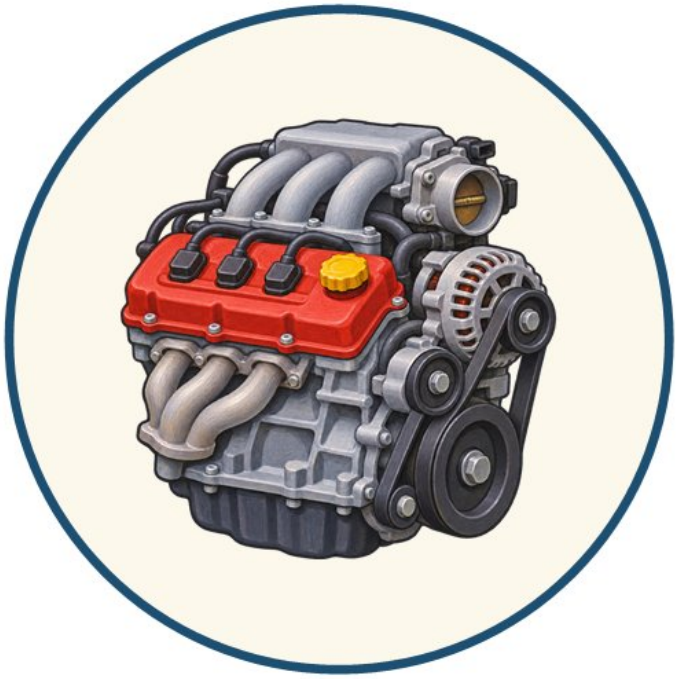

A wheel-shaped control used to steer many vehicles.

brake

A brake slows or stops a vehicle. On this bicycle the hand lever operates the brake at the wheel.

engine

A machine that supplies power to move many vehicles.

seat

A place made for a person to sit.

seat belt

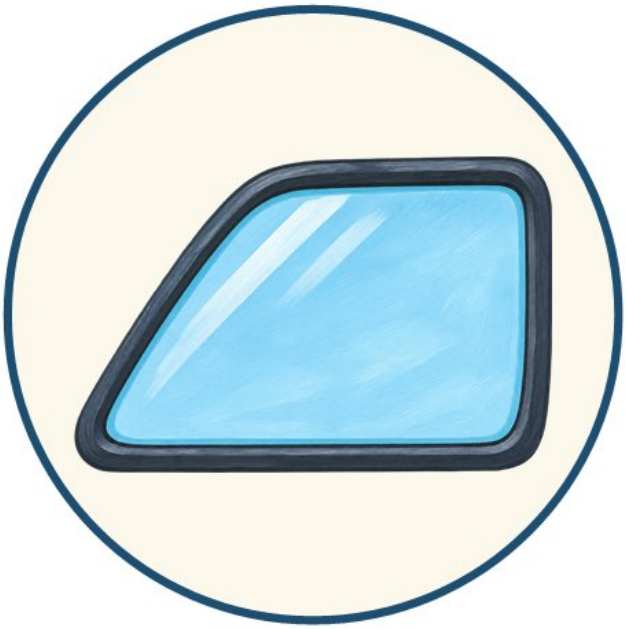

A belt that helps hold a person in their seat. An adult checks the right belt or restraint for a child.

door

A movable part that opens and closes an entrance.

window

An opening with glass or another clear material that lets us see through.

headlight

A light on the front of a vehicle that helps light the way.

indicator

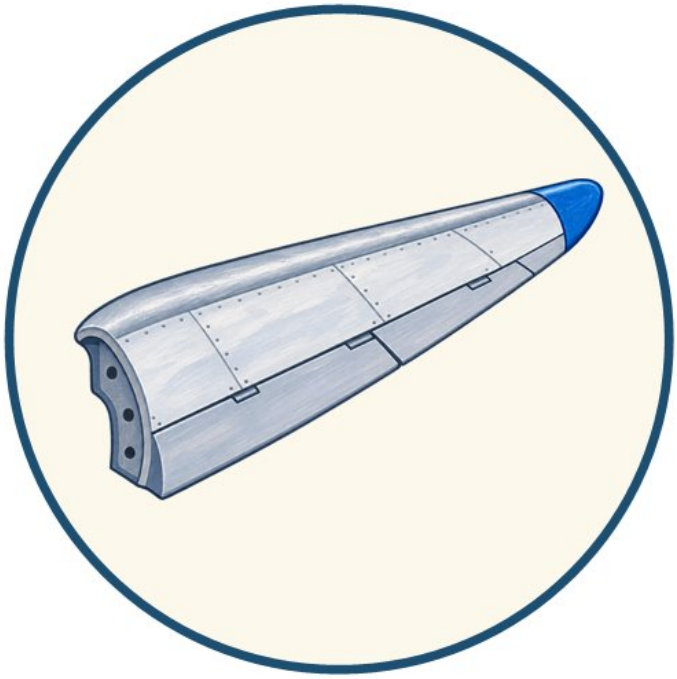

A light that flashes to tell others a driver intends to turn or change lanes.

vehicle mirror

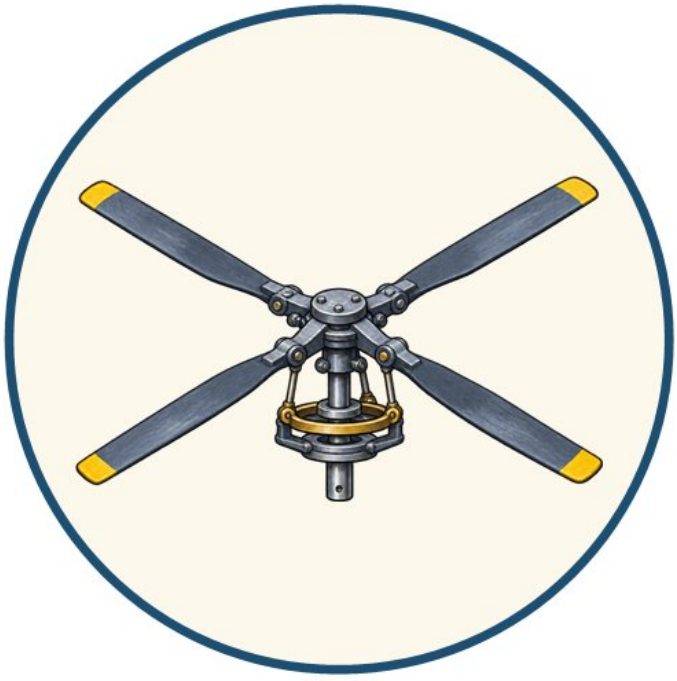

A mirror that helps a driver or rider see around or behind a vehicle.

wing

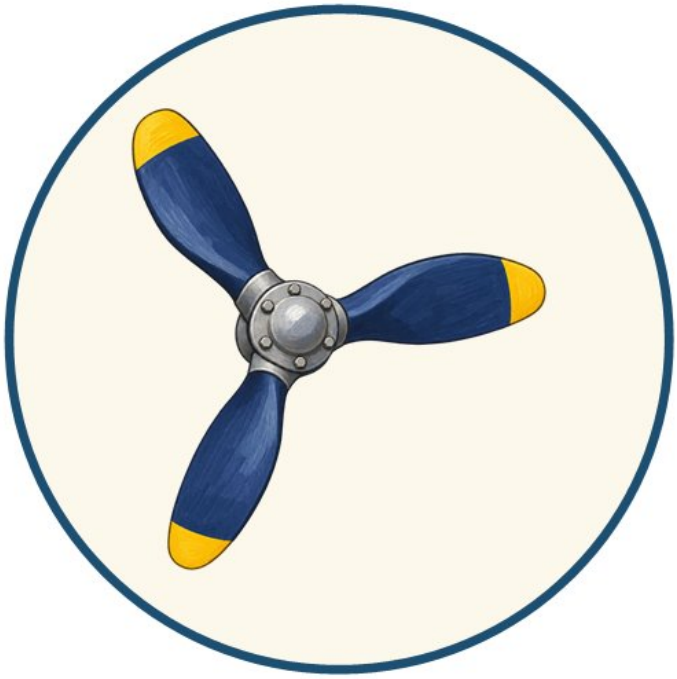

A shaped part of an aircraft that helps support it in flight.

rotor

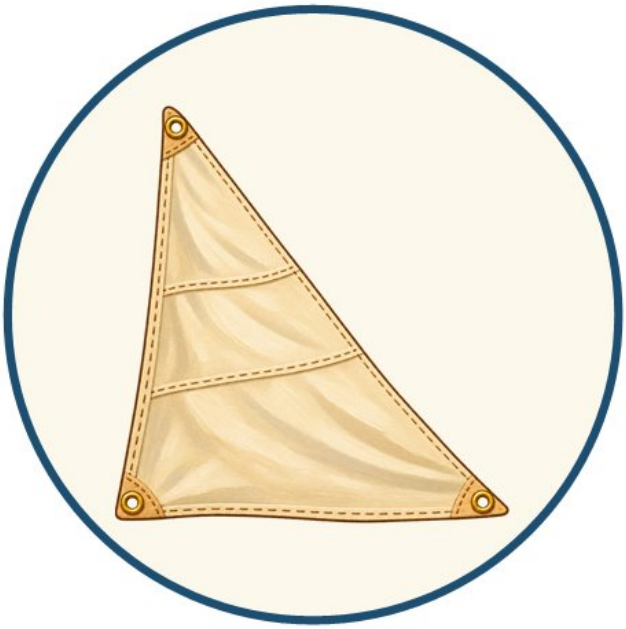

The set of turning blades above a helicopter that helps lift it.

propeller

A set of turning blades that push air to move this airplane forwards.

sail

A large sheet of strong material that catches wind to help move a boat.

anchor

A heavy object lowered from a boat to help hold it in place.

train carriage

A connected section of a train that can carry passengers.

road

A way made for vehicles to travel along.

pavement

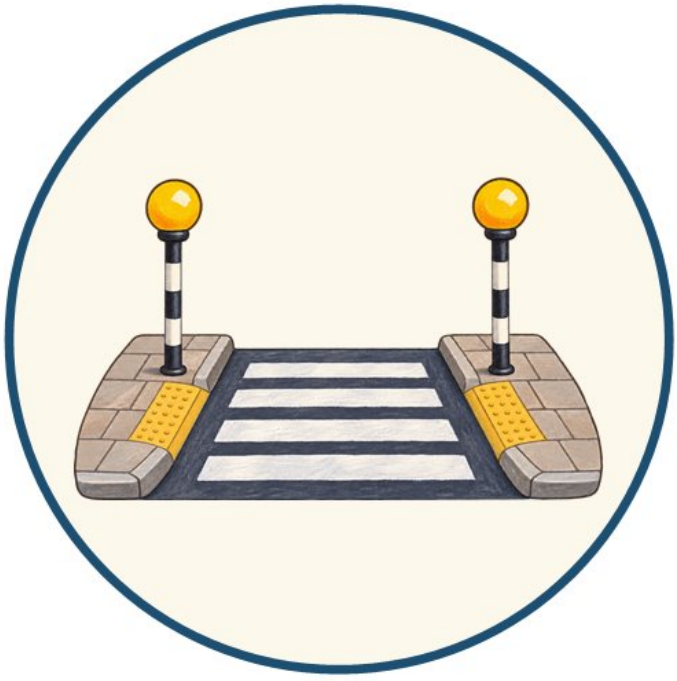

A path beside a road for people to walk along.

cycle lane

A marked part of a road or route for people riding bicycles.

pedestrian crossing

A place marked for people to cross a road.

junction

A place where roads meet.

roundabout

A road junction where vehicles travel around a central area.

bridge

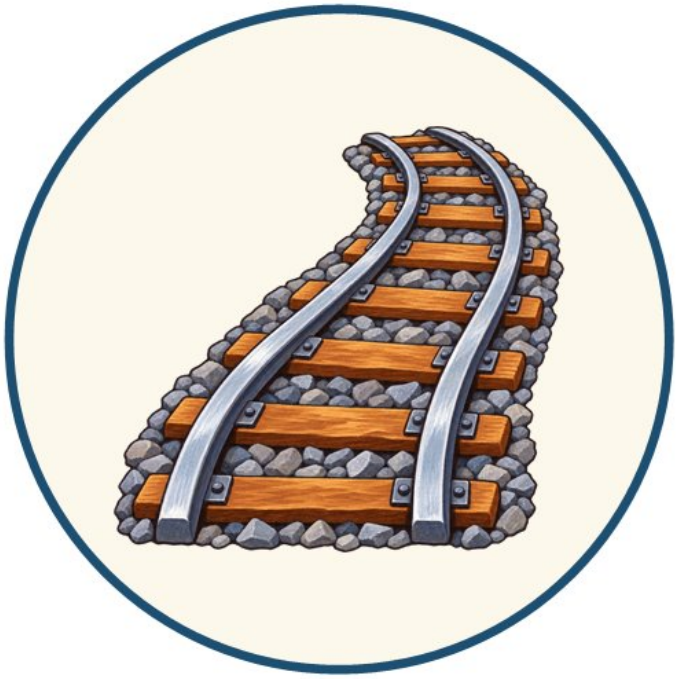

A structure that carries a route over a gap, water or another route.

tunnel

A passage through or under something, such as a hill.

railway

A route with tracks for trains.

train station

A place where trains stop for passengers to get on or off.

platform

The raised area beside a railway track where passengers wait, get on or get off.

bus stop

A marked place where buses stop for passengers.

airport

A place where aircraft take off and land and passengers begin or end flights.

runway

A long prepared strip where aircraft take off or land.

harbour

A sheltered area of water where boats and ships can stay.

ferry dock

A place beside the water where a ferry ties up so people can get on or off.

canal

A waterway made or changed by people for boats or water to pass along.

car park

An area where vehicles can be parked.

repair garage

A place where people repair vehicles.

fuel station

A place where vehicles can receive fuel.

passenger

A person travelling in a vehicle who is not operating it.

driver

A person who controls a road vehicle.

cyclist

A person riding a bicycle.

pedestrian

A person travelling along a route on foot or using a mobility aid.

pilot

A person trained to control an aircraft.

boat captain

The person in charge of a boat, such as a ferry.

train conductor

A member of the train crew who helps passengers. On some trains they check tickets.

mechanic

A person who maintains or repairs machines such as vehicles.

delivery worker

A person who brings parcels or other goods to people.

firefighter

A person trained to help put out fires and rescue people.

ride

Travel in or on a vehicle. This passenger is riding on a bus.

drive

To control a moving road vehicle.

steer

Control the direction a vehicle travels.

stop

To finish moving and stay still.

turn

To change the direction you are facing or moving.

reverse

To move backwards.

park

Bring a vehicle to a stop in a place where it can stay.

get on

Move from the pavement up into a stopped bus.

get off

Leave a vehicle after it has stopped.

load

To put things into or onto a vehicle for carrying.

unload

To take carried things off or out of a vehicle.

take off

To leave the ground and begin flying.

land

To return to the ground or another landing surface from flight.

float

Stay at the surface of water. You can see this boat floating at the waterline.

helmet

A strong covering worn to help protect the head.

life jacket

A jacket designed to help keep a person afloat in water.

child car seat

A seat designed to protect a child travelling in a car. An adult checks the child's restraint.

traffic light

A set of coloured lights that gives signals to road users.

stop sign

A road sign telling drivers to stop.

crossing signal

A signal for people crossing the road. This red figure means wait.

reflector

A piece that sends light back towards where it came from.

reflective vest

A vest with strips that reflect light and help people see the wearer.

bicycle bell

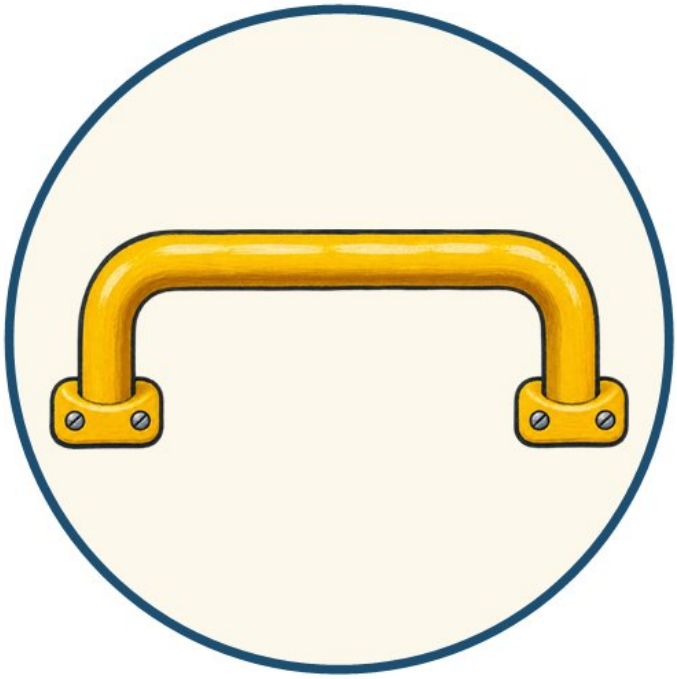

A small bell used by a cyclist to make a warning sound.

barrier

An arm or fence that closes a route. This barrier closes the road at a railway crossing.

handrail

A rail that people can hold for support.
