boat

A water vehicle used to carry people or things.

ship

A large water vehicle that carries people or goods.

ferry

A boat or ship that carries passengers, and sometimes vehicles, between stopping places.

speedboat

A motorboat designed to travel quickly on water.

yacht

A boat used for leisure, powered by sails or an engine.

jet ski

A small powered watercraft that a rider sits or stands on.

rowboat

A small boat moved using oars.

sailboat

A boat that can use wind in its sails to move.

canoe

An open boat. This canoe is shown with a paddle that has one blade.

kayak

A narrow boat with a low seat. This kayak is shown with a paddle that has a blade at each end.

tugboat

A strong boat that helps move other boats or ships.
